DETAILED ACTION

Drawings

1. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the drawings are unclear, dark colored, and difficult to interpret. New drawing for Figures 1, 2, and 4-14 should be submitted for publication, similar to quality of the replacement drawing for Figure 3, submitted 13 January 2005. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Allowable Subject Matter

2. Claims 1-20 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Regarding claims 1-8, the prior art made of record fails to show a cage structure having two fastening elements, i.e. one apertured plate/pin arrangement, and one keyed slot/headed pin arrangement, disposed each on a first and second panel of said cage, respectively.

Regarding claims 9-20, the prior art made of record fails to show a cage having a top assembly having two pivoting end panels having a U-shaped clip, and two top panels secured to the end panels via the U-shaped clip and secured to a base frame via a second clip.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
